

Adventure Boat Rentals, Inc.

OPERATING & SAFETY AGREEMENT

Customer Initial

_____ **Service Area:** Our Service Area covers the first 13 miles of the Osage Arm from Bagnell Dam (0MM) to the 13MM, and the first 7 miles of the Gravois Arm. If you experience problems while operating outside this area, you can expect a long response time and high service call fee. We advise you to operate within our service area. Party Cove is NOT in our service area. There are other boat rental companies that are much closer to PC and are willing to take that risk.

_____ **Service Calls** are billed at \$75 per man hour plus fuel for the service boat. Examples of problems for which the customer is responsible include:

- Dead battery or burned up starter from improper starting procedure or leaving accessories (lights, radio) on.
- Rope in the prop or debris in the jet drive
- Prop, hub or lower unit damage resulting from impact
- Running out of fuel or oil
- Swamping – see rough water warning

_____ **Report any problems immediately.** Failure to do so may result in damage to the watercraft or serious personal injury to passengers. Damage caused by continued operation will be at customer's expense.

_____ **Cell Phones:** We highly recommend that you carry a cell phone and make sure we have your number prior to departure.

Your Cell phone # _____

_____ **Stay at idle speed** at anytime you are within 100 feet of a dock, swimmer or other watercraft.

_____ **Keep away from shorelines.** Do not beach the watercraft. Almost all of the lake's shoreline is rock, and damage will occur. Anchor offshore if you have problems.

_____ **Over 90% of all damage occurs at docks.** You are advised to stay away from foreign docks. Before returning to our dock, call ahead or make sure we can see your boat so we can assist you. If you choose to dock, use of our bumpers and a good 4-way tie will help minimize damage. You will be charged for all damage to this watercraft, so use extreme caution and take your time when docking. See list of charges for rub rail and repair labor.

_____ **Overnight Rentals.** Our insurance prohibits operation after sunset. Your overnight rental allows you to use the boat after our normal closing time of 6pm until sunset. Our vessel has to be in your slip by then.

_____ **Return at the designated time.** Failure to do so may result in long delays and additional charges prorated at \$60/hr.

_____ **Fueling:** We have been instructed how to fuel the watercraft.

Gas: 87 90 93 Octane
Oil: Castrol 20W50

_____ **Rough Water Warning:** Large waves may cause extensive damage to the watercraft and injury to its passengers. Use extreme caution when approaching large waves.

1. Do not exceed the capacity limits of the vessel.
2. Load weight to the rear of the watercraft to keep the bow riding high.
3. Reduce speed and approach the wave at a 45 degree angle.

Do you have any questions or concerns that you would like to discuss? YES NO
